Progressively Covering Full Curriculum Persistently Enhancing Platform Functions

STAR 2.0 is an online assessment item bank with more than 59,000 assessment items covering the subjects of Chinese Language, English Language and Mathematics from Key Stage 1 to Key Stage 3. With a view to persistently enhancing learning and teaching effectiveness, catering for students' learning diversity as well as strengthening Assessment for Learning and assessment literacy, the platform has been upgraded since October 2020, extending the coverage progressively from Basic Competencies to Full Curriculum of Chinese Language, English Language and Mathematics. Apart from the relatively vast amount of reading assessment tasks for language subjects currently offered, STAR 2.0 encompasses more listening, speaking and writing assessment tasks. The assessment items of Mathematics in parallel covers the learning objectives of the Non-foundation Topics (applicable to Key Stage 3) by phases.
